EDUCATION

Kendall College of Art and Design (2006-2010)

Bachelor of Arts in Interactive Design, Graphic Design minor

JOB HISTORY

Samskee.com (2009 - current)

Designer/muralist/fine artist

Straight out of his backyard workshop, Samskee is either designing, painting, or researching new ideas within digitized newspaper archives to create new works. As of Summer 2021, he has started a new series of paintings on plexiglass honoring notorious locations throughout the city of Lansing.

Retroduck.com (Aug 2020 - current)

Printer

Returned to the Duck after ~10 years to push ink onto apparel once again. Duties include prepping and burning screens, setting up/breaking down multiple color print jobs on a 6 color press, monitoring inventory, and keeping the production area/equipment in working order.

Golden Harvest (Jan 2018-Jan 2020)

Dishwasher/prep cook/webmaster

Kept the back of the restaurant in order- from inventory to preparing food for the line, to dishwashing, to hosting and managing the diner's website.

RocketFuel (Dec 2016-Jan 2018)

NOC Technician

Monitoring and reporting server and network-related issues in a big data environment managing large ad-serving clusters. Assisted with writing runbooks to diagnose server issues across a variety of services hosted around the world to provide constant and efficient ad serving, bid placement, and bid winning.

Liquidweb (Feb 2012-Aug 2016)

Level 3 Linux Support Admin

Assisted customers in a helpdesk-style environment via email tickets, livechat, and phone calls regarding various issues ranging from general server trouble, spam, code/software issues, malware/virus detection and removal, difficulties with site migrations, and DNS. Also assisted with training newer coworkers to strengthen the team.

REACH Art Studio (Summer 2014)

Open Teen Studio Instructor

Taught high school kids how to design and paint murals, and assisted with conceiving and designing various murals around REO Town.

M3 Group (Aug 2011-Jan 2012)

Web Designer aka Internet Explorer(literally)

Maintained M3/CAWLM website, fixed computers, and designed websites using a variety of CMSes, and HTML5. Also selected correct paper size for printer on many instances as a fix.
